

COLLABORATIVE WELD CARTS

OPTIMIZED FOR YOUR SHOP'S NEEDS NOW

INDUSTRIAL STRENGTH COLLABORATIVE WELDING

FEATURES AND BENEFITS

Efficiency and Productivity

The CL series cobots can operate continuously, automating repetitive tasks and increasing overall productivity.

Programming Ease

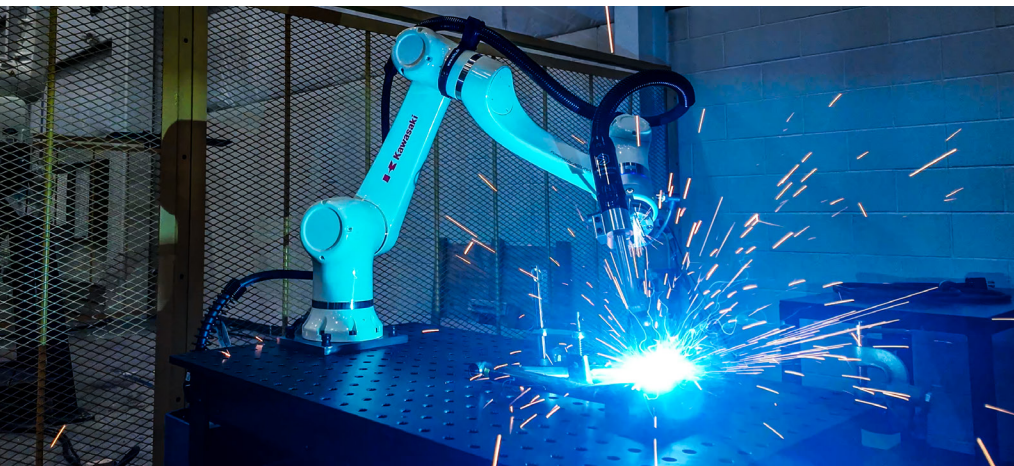

With Easy Teach, the Kawasaki CL welding line offers a user-friendly interface to simplify the programming and teaching process for robotic welding applications. No prior experience to easily guide the robot through desired welding paths and positions.

Safety Enhancements

Equipped with advanced safety features, including collision detection and speed limits, allowing them to work safely alongside human workers.

Build to Your Shop Spec

Our technology agnostic systems allow you to customize your cart to your shop spec as we support most the major welding supply brands.

Miller Weld System
