

Kawasaki Robotics e-News is an electronic bimonthly newsletter that provides our customers with useful information on robotics.

10,000 visitors to Robostage

Since the opening of Kawasaki **Robostage**, more than 10,000 people have visited the showroom in only 14 weeks, reflecting the huge public interest in Kawasaki and the coexistence of humans and robots.

It targets both companies considering utilizing robots as well as the general public, aiming to serve as a place where anyone can come to see, experience and deepen their understanding of robotics.

Opening hours:

Tue., Wed. & Fri.: 10:00 – 18:00

Sat., Sun. & national holiday: 13:00 – 18:00

* Closed on Mon. & Thu., unless it is a national holiday.

New Controller "F-series"

Kawasaki plans to launch a new compact robot controller on 1st December 2016. The new "**F series**" controller simplifies maintenance and saves energy while inheriting the excellent operability of the existing E7x and D6x controllers. The new F series controller is the smallest and lightest in its class in the industry.
